THOMPSONS TEA

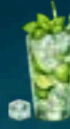

In 1896, from a tea warehouse near Belfast docks, our founder Robert S Thompson, trained in the art of tea tasting and soon became known for his uncompromising devotion to quality.

Since then, four generations of Thompsons' have been blending and packing our award-winning range in Belfast for over 120 years.

As 4th generation Thompsons, we share this passion for quality and take great pride in the fact that over 1 million cups of Thompson's Punjana are enjoyed every single day, in Northern Ireland alone. To this day, every blend we ever produce is first tasted and then approved by a member of the Thompson family.

THE REAL
YORKSHIRE
PUDDING CO.

TO OTHERS, THE HUMBLE YORKSHIRE...

To others the humble Yorkshire might just be a Sunday staple, reserved only for roasts. But not for us. To us, they can be the star of the show. Reinventing this pudding in experimental and delightful ways, we put Yorkshires front and centre.

1992 was the start of the journey.

We went down under in 2012 and across the pond. Both Australia and Canada came calling and without haste we delivered, supplying Woolworths with some wholesome Yorkshire goodness.

In 2023 because we love our Yorkies SO much, we want everyone to join the pudding party. So, we put our heads together, put in a lot of love and late nights and the result? Only the most, toad-ally awesome, vegan, one-of-a-kind, award-winning, twist on a traditional classic (drum roll please) TOAD IN THE HOLE – mind blown. We launched our 'holesome new product just in time for Veganuary and with awards from Vegan Food and Living magazine you know it's a good 'un.
